GOAL

Our goal at Yarralinda Early Learning Centre is to produce a competent, happy, engaged young person that can confidently move into primary school ready to embrace the next stage of their learning journey.

Other Information

Documentation from us: In the ELC we prepare documentation which includes written observations, photos, learning stories, child’s transcript and art work. Each child has their own portfolio, which is available at any time for families to see.

Meals: We encourage & teach the children the importance of healthy eating. Parents are asked to provide enough food for the children for the day. Some days children eat more than others. Yarralinda has a no nut policy in the ELC.

Health: Regular attendance is important for each child, however if your child is unwell it is best for them to be at home recovering.

Medication: Can only be given with the written consent from the parent, in the right container, with the right dosage and child’s name.

Rest time: Many of the children in the ELC don't need a sleep, however if your child requires a rest, a quiet area will be provided with a pillow and blanket.

Settling in: Some children require more time to become familiar & settle in a new environment. Our educators will do everything to make your child feel secure and comfortable.

Sign in/out: Regulations require each child to be signed in and out of the centre.

Toys: Toys from home are discouraged unless it is for Monday show & tell or has a purpose for comfort (rest time).
