Yarralinda supports the VICTORIAN EARLY YEARS LEARNING AND DEVELOPMENT FRAMEWORK and strives for the following outcomes:

- Children have a strong sense of identity
- Children are connected with and contribute to their world
- Children have a strong sense of well being
- Children are confident and involved learners
- Children are effective communicators

Our program aims to enrich each child’s learning experiences through positive interactions; an enriched stimulating play environment, both indoors and outdoors; an inclusive social setting that allows for open communication and self-expression. Children are full of questions, theories and ideas and these are explored through topics that capture and engage each child's interests. Our staff use open ended questioning, guided learning, collaboration, communication and problem solving to extend each child’s knowledge base and skill level. The ELC acknowledges that parents are their child’s first teacher and encourages interactions that enhance the sharing of information.
